JOB EXPERIENCE

SENIOR FULL STACK DEVELOPER · 2021 - Present

AgileThought / Florida

Design of scalable and maintainable apps. Lead of development teams, and managing complex projects. Front-end (Angular, Vue and React) and back-end (JavaScript, C#) development, using database management (SQL, NoSQL) and API development. Driving continuous improvement, ensured code quality through rigorous reviews.

FULL STACK DEVELOPER · 2017 - 2021

Audi MX / Mexico

Developing and maintaining web applications as a Full Stack Developer. Front-end development using Angular and back-end development with C#. I also worked extensively with SQL databases to manage and manipulate data effectively. I involved collaborating with cross-functional teams to deliver high-quality software solutions, participating in code reviews.

HEAD DEVELOPER · 2016 -2017

Asiatech ACK / Mexico

I led a team of three developers, focusing on administrative oversight, project documentation, and tailored training programs to enhance our proficiency in software development methodologies. I also actively contributed to coding activities, guiding strategic decisions and maintaining high-quality standards through thorough code reviews.

DEVELOPER · 2015 -2016

Asiatech ACK / Mexico

Backend development, actively contributing to coding tasks such as implementing functionalities, debugging, and ensuring code quality through thorough testing and reviews. closely collaborated with team members to deliver solutions aligned with project requirements and timelines.
